June 6, 2018

To Whom It May Concern:

On May 23, 2018 Palmer Farms Inc was cited for Act 451 no water spray. We have water suspension on the crusher however the water tank had not been brought up to the job site yet. We only ran a partial day, as we were running a test pile, to see how the material with hog slats would work. The water was brought up right away and the guys have been told not to run even a test without water.

As for the moving permit, Rule 201 relocation documentation, it was an oversight on Mike's part. He has been doing chemo at U of M and it slipped his mind, he simply forgot that he had to notify you of the move. We now have more people aware of the fact that a notice to relocate is needed. The correct paperwork will be submitted in the future.

The matters have been corrected and will not be a problem in the future.

Thank you for your consideration in these matters.

Michael Palmer
Pres
Palmer Farms Inc.
