To Whom it May Concern,

On March 8th, 2023, Glorious Cannabis received a violation for Rule 336.1201 for failing to obtain the necessary permit to install 1 MW generator powered by G3516 LE Caterpillar engine. Installation occurred in 2021. The generator is only turned on once a month to make sure it still functions in case of a full facility power outage for an extended period of time. We are currently in the process of obtaining three proposals to complete the permitting application. We are using the consultants recommended by EGLE for this purpose. We expect to have these proposals completed and award the project in the next couple of weeks.

Please let me know if there is additional information needed.
