Inspection Summary

I entered the school office where I met the receptionist. After introducing myself and informing her of the purpose of my visit, she directed me to Erin. Erin walked me to the boiler room where we could not locate the incinerator. Erin stated that she was unaware of any sort of incineration device in the building.

I feel comfortable stating this device is no longer installed and if so, is no longer operational thus voiding the permit is acceptable.

The notice of voidance will be sent to:

Mr. Tony Sitko
Flint Community Schools
923 E. Kersley
Flint, MI 48503

This report will be used to void permit 289-681-A in accordance with MDEQ memo Procedure for Voiding Permits to Install, dated June 7, 1999.
