Dear Mr. Tepfenhart:

VIOLATION NOTICE

On September 1, 2021, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), conducted an inspection of Titan Concrete, umbrella organization of Hercules Concrete LLC located at 6497 East 10 Mile Road, Center Line, Michigan. The purpose of this inspection was to determine Titan Concrete's, umbrella organization of Hercules Concrete LLC compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and to investigate a recent complaint which we received on August 23, 2021, regarding fugitive dust attributed to Titan Concrete, umbrella organization of Hercules Concrete LLC operations.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Roadways and parking lots	R 336.1901	Rule 901(b) states, a person shall not cause or permit the emission of an air contaminant in quantities that cause unreasonable interference with the comfortable enjoyment of life and property. Fugitive dust was observed originating from the facility parking lots and roadways entering the atmosphere and onto residential property.

In the professional judgment of AQD staff, the fugitive dust that was observed was of sufficient intensity, frequency and duration to constitute a violation of Rule 901 of the administrative rules promulgated under Act 451.
