Waste Free, LLC (U-63-14-15566)
2333 Sherwood Ave.
Warren, Michigan 48091-5362

Web: waste.free.com

On November 24, 2014, I conducted a level 2 self-initiated inspection of Waste Free, LLC ("Waste Free") located at 2333 Sherwood Ave., Warren, Michigan 48091-5362. The inspection was conducted to determine compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451; and Michigan Department of Environmental Quality, Air Quality Division (MDEQ-AQD) administrative rules.

During the inspection, Ms. Araceli Ezeta (Phone: 586-339-8215; Fax: NA; Cell: NA; E-mail: Araceli@waste.free.com), Administration and Procurement Manager, assisted me. Mr. Glen Rowe, owner, was not present.

Waste Free recovers recyclable materials from automotive industry. The materials are shredded for recycling purposes. The Warren facility is divided as: Clean Side and Dirty Side. Dirty Side handles paint sludge filters and recyclable aluminum is recovered. The filters are received from automobile assembly plants. Clean side handles plastics such as polypropylene. All emissions are released to in-plant environment. One shredder is equipped with cyclone (primary for large particles) and dry filter (secondary for fine particles) systems, arranged in series.

Conclusion

Rule 285 exempt particulate emissions equipment.
