DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Scheduled Inspection

U7013292623613

FACILITY: Fleet Refinishing Works		SRN / ID: U70132926
LOCATION: 13080 New Holland Street		DISTRICT: Grand Rapids
CITY: Holland		COUNTY: OTTAWA
CONTACT: Don Wilson, Supervisor		ACTIVITY DATE: 11/06/2013
STAFF: April Lazzaro	COMPLIANCE STATUS: Compliance	SOURCE CLASS: minor
SUBJECT: Unannounced, scheduled inspection.		
RESOLVED COMPLAINTS:		

Staff April Lazzaro and OWMRP staff John Fischer arrived at the facility to conduct an unannounced, scheduled inspection and met with John Lorence and Supervisor Don Wilson.

They were provided with the DEQ Environmental Inspections: Rights and Responsibilities brochure and its contents were discussed.

This facility conducts coating of heavy duty vehicles in any of four paint booths that operate pursuant to the Rule 287(c) permit exemption. Filters were observed to be in good condition. The facility uses approximately 200 gallons of coating per month in all booths combined. Mr. Wilson provided records of coating usage for the past three months to confirm this. (see attached)

The facility also maintains and utilizes a small solvent recovery still.

The facility also conducts sand blasting in heavy duty visquene structures in the back. These are used to contain any sandblast material from becoming an air contaminant. While there was some 'trackout' in front of the structure, it did not appear to be a significant issue.

The facility was in compliance at the time of the inspection.
